

The outdoor outfitters for your school

Mt Pritchard Public School

Proving the benefit of play at school

Children that play actively are happier, stronger and more focused during school lesson times.

With so many ways to “play” that don’t even involve leaving the house, we need to encourage our children to get outside and be active as much as possible.

The students and staff at Mt Pritchard Public School worked with our designers to create this engaging play space that has captured the hearts and imaginations of everybody.

Let our team work with yours to create an amazing play space for your organisation.

PLAY is Learning

Children learn through play. 75% of brain development occurs between birth and 3 years of age. Mostly through play.

PLAY is Creativity

Children are mini-entrepreneurs looking for better ways to do things. Play teaches the skill of creativity.

PLAY is Co-ordination

Gross motor skills are largely learnt through play. Climbing, gripping, balancing, sliding and jumping.

PLAY is Healthy

Active play keeps children strong and well, setting them up for a healthy life by enjoying exercise.

PLAY is Resilience

Children that play learn resilience and grow into confident adults that know themselves well.

It was a pain free experience. Moduplay accommodated our needs with ease from our first enquiry to installation. Our equipment was installed on time with no fuss. We would definitely recommend that centres use Moduplay for their equipment needs. Our children love their Pirate Ship! Thank you Moduplay!

– G.C. – Pre-School Association President
Pre-School, South Coast NSW

The equipment is fantastic. The kids swarm over it like ants. Congrats to the fellas for a great job.

– School Principal
Figtree Public School, Illawarra NSW

Your quiet concern and thorough attention to detail have been great. I cannot thank you enough for all your efforts and your extremely agreeable nature.

– Trish Crawley
St Brigid's School, Coonamble NSW
